Laser Technology for Quality Printing

The KX-FL612CX lets you enjoy the professional look of laser printing. The laser copier function helps assure high quality reproduction in every document and drawing you want to copy.

14 PPM Laser Printing

Whether you're printing or copying faxes or original documents, the Panasonic KX-FL612CX delivers crisp 600 dpi laser output at an incredibly fast rate of 14 pages per minute.

120-Page Document Memory*2*3

The KX-FL612CX can store up to 120 pages in its built-in memory. Ideal for broadcasting multi-page documents to multiple locations. This feature also enables out-of-paper reception for up to 170 pages.

Advanced Features

Convenient Laser Copier Function

The KX-FL612CX performs a range of advanced laser copier functions in 600 dpi at 14 PPM: Enlarge (to 200% in 5% steps), Reduce (to 50% in 5% steps), Collate (sort) and Multiple Copy (up to 99 copies from one original).

Caller ID Ready*1

Thanks to caller ID (FSK/DTMF) compatibility, you can view the name and/or number of your incoming callers on the 2-line LCD readout. You can also print the list for your records. It's a great timesaving feature for both business and personal use.

High Speed Fax Transmission (14.4 kbps)

This system is designed for fast, efficient fax transmission at speeds up to 14.4 kbps. This minimizes costs when you're sending a long distance fax.

Dual Access Operation

This intelligent function quickens the pace by letting you run two operations at the same time. For instance, while the KX-FL612CX is busy sending or receiving a memory-based fax, you can store additional documents to send later.

Other Features

- 14 PPM high-speed laser printing
- Transmission speed: up to 8 seconds per page*2
- Caller ID list printout*1
- Sequential broadcasting (20 locations)
- Junk fax prohibitor (up to 10 numbers)
- Delayed transmission
