Simple and Easy to Use

2-Digit Message Counter/Digital Answering System (KX-TG3721BX/KX-TG3722BX Only)

The TAM Counter's handy location on the base unit makes it easy to see how many messages you have with a glance when you return home. This system automatically answers and takes a message from the caller when nobody is at home. Total recording time of about 18 minutes available.

Large 1.8-inch LCD

The large, backlit 1.8-inch screen is easy-to-read, and the simple menu screen lets you access functions without confusion.

Power Failure Talk System

During an electric power failure, you can supply the power stored in your handset to the base unit, so you can make calls even when the power is out.
